

Testimonial from a grateful father on May 27, 2017:

“My wife and I cannot express in words our gratitude for your offer of help [in housing in Bethesda] and [emotional] support at a time of extreme stress for us (after our daughter, an intern at the NIH, got physically attacked in an attempted abduction of her in Rockville on her way to her room in a challenging part of Rockville.)

[Through your assistance as someone who rescued her] our daughter is rapidly getting over the terror of yesterday [after her near abduction.]

I strongly believe that the power of good will always overcome that of evil and the Lord will come to our rescue as long as we trust in him

Thank you so much for helping out [our daughter]. . .

Thank you once again”
